BEHAVIORAL & DEVELOPMENTAL
SERVICES

INDIVIDUAL INTERVENTION

Imagine is committed to supporting each client through their lifespan, tailoring evidence-based treatment to individual goals and aspirations resulting in optimal outcomes. As a client's needs evolve, so do our treatment models.

ALL SERVICES INCLUDE

- ★ Comprehensive assessments and individual treatment plans
- ★ Trained Behavior Technicians supervised by Board Certified Behavior Analysts
- ★ Specifically selected evidence-based treatment modalities
- ★ Ongoing evaluation and plan modification to ensure optimal outcomes

SPECIFIC TREATMENT MODELS

- ★ **Early Intervention (Birth-5):**
Services focus on a variety of domains including communication, core cognitive skill development, play, social engagement and daily living skills across a variety of settings including home, center, day care and/or school.
- ★ **Youth Therapy and Consultation (5-18):**
Services focus on specifically identified issues related to communication, social engagement, behavioral issues and daily living skills specific to the child's natural environment with an emphasis on generalization and independence.
- ★ **Adult Therapy and Consultation (18+):**
Services focus on identifying environmental barriers and skill development targets that will result in optimal outcomes in the home, community and work environments.

PROFESSIONAL TRAINING

Individually tailored training and professional development is available to community organizations including schools, human service groups, and parent and professional organizations.

Each session includes active engagement with uniquely designed content including performance criteria to ensure successful outcomes for all participants.

FAMILY EDUCATION

At Imagine, we believe that our families and care providers are critical members of our team. As such, we include education and training into each and every therapy session.

This service can include classroom-based instruction, role playing, team meetings, direct skill instruction and natural environment feedback.

WHO WE ARE

Imagine provides evidence-based intervention grounded in the science of Applied Behavior Analysis in order to promote maximum independence for the individuals we serve as well as the families that support them.

We believe that all individuals, regardless of severity of disability or socio-economic status, deserve state of the art, individualized service in a warm and supporting environment. From the moment services are initiated, a personalized, analytic approach is employed to ensure that everyday yields maximum results.

Mission

Imagine utilizes behavior analytic practices to promote independence for both the individual and their support system in order to reach their maximum potential.

Vision

All individuals, regardless of disability have the right to an enriched and purposeful life.
